Few things are more fascinating in their way than a study of the subterranean history of man, whether in caves or in mounds, whether it be to corroborate written history or to take testimony that ante-dates all writing. President Bartlett, of Dartmouth, contributes an interesting article on this topic to the July number of the North American Review. From the men of unknown ages and their works underground, to men grappling with the latest questions of our own day and discussing the parceling out of the earth's surface, is a long step; but in the same number of the Review appears a conversation between David Dudley Field and Henry George on land and taxation. Another urgent question, which may soon make a very serious issue, the extradition of dynamite criminals, is debated by President Angell, of Michigan University, George Ticknor Curtis and Justice T. M. Cooley. Dorman B. Eaton, Chief of the Civil Service Commission, gives his views of the result of that reform. William Clarke shows the futile character of any scheme for British imperial federation, and Thomas W. Knox gives a brief but interesting sketch of the progress of European influence in Asia. The other articles are one by Gail Hamilton on prohibition in practice, and one by Rev. Dr. C. H. Parkhurst on the decline of Christianity. These, with the batch of free-hand comments, makes up a number of unusual interest. If the allotted age of man were sufficient for a magazine, we might have to part here with an old friend, for the Review has just completed its seventieth year. But outwardly it renews its youth with a new cover, and inwardly it seems more vigorous than ever.

That the Territory of Dakota is rapidly acquiring population is shown by every return made to the Government from that part of the world. The Post-offices in the Territory now largely outnumber those of many States in the Union. There were when the last report on the subject was compiled at Postoffice Department, over 900 Post-offices in Dakota, more than there are in any of the States of Delaware, Colorado, Connecticut, Florida, Louisiana, Maryland, Massachusetts, Nevada, New Hampshire, New Jersey, Oregon, Rhode Island, South Carolina or Vermont, and more than several of the number put together. At the election last Fall for delegates in Congress there were 87,000 votes cast, while for the same office in 1882, there were but 47,000 votes cast. The evidence is ample that Dakota is growing, and she has already a surplus over the population required to form a Congressional District, which is the standard of measurement according to the revised notion of the Democratic party.

Admiral David D. Porter is writing a "History of the Navy During the Civil War." He expects to complete it during the coming autumn. About one-third of the manuscript of the work is already in the hands of the publishers. It will be an octavo volume of over nine hundred pages. The announcement will come as a surprise to some of the younger citizens of the literary world when it is remembered that Admiral Porter is not only 72 years of age, but that he has just issued to the world a 900-page novel written in six months, and that he has now two books, each of 500 pages, in press. And this vigor and industry are accompanied by the fact that hardly a tinge of gray has made an appearance in his chestnut-colored hair, and that his whiskers only show, as he puts it, "about one hair in ten gray, and a little gray hair under the jaw."

By order of the Board of California State Prison Directors the officers at the Penitentiaries on the 4th donned a uniform prescribed by the Board. It consists of navy blue pantaloons, vest and single breasted frock coat with brass buttons and slouch hat. Heretofore the prison officials were attired in any style of clothing that suited them.

Grand Army Suggestions.

O. B. Culver, Commander of Lincoln Post, San Francisco, in a circular to members of the Post, says:

"Day by day many of those who stood with you on the field are growing feeble. They cannot many years longer keep pace with the young and vigorous men of a later generation in the exhausting race of bread winner against bread winner.

Let us sustain them and smooth their way down through the declining years of life by extending all the fraternal assistance within our power.

The ranks of this Post are filled with professional men, merchants, manufacturers, mechanics and laborers. Nearly every department of professional skill and every branch of industry are represented among us.

If our comrades can supply us with what we require, either in professional skill, merchandise or labor at no great cost to us, why should he be left to struggle for himself while we coldly supply ourselves from among those to whom we are not bound by any obligation, either moral or technical?

It is often that we know not how much our comrades need our help until he is compelled in the last extremity of suffering to bury all his sensitiveness and pride in an appeal to us for charity.

We do not hesitate to constantly remind the public that those who submitted themselves to hardships and perils for the sake of their country are entitled to everlasting gratitude and tenderest care. How can we better emphasize our words than by the practice of that principle among ourselves?

If among our comrades we find a competent professional man whose services we need, let us employ him; if a merchant, patronize him; if a mechanic or laborer unemployed, seek employment for him; if already employed at labor harder than he is able to perform, or less remunerative than his necessities require, help him to improve his condition.

Further, let us invoke the aid of our friends in this work, and never forget or ignore our comrades when an opportunity is offered to assist him without prejudice to ourselves or those we ask to co-operate with us."

The Geiger Road.

The Virginia Chronicle says:

The County Commissioners propose at their next meeting Saturday to renew the lease on the Geiger-grade road. The road belongs to the people of Storey county as far as the Washoe county line. The people of both counties would be glad to see it maintained as a free road, because it would more than double a very profitable traffic between both counties. The Commissioners have no more equitable right to lease this or any other county road to private parties, and to authorize the collection of exorbitant tolls, than they have to lease the right of way along B street. If they are honest, conscientious men mindful of the oaths binding them to faithfully guard the interests of the people whose servants they are, the Chronicle would suggest that they should declare the Geiger-grade road a free public thoroughfare, or give to some responsible and industrious person the privilege of collecting one-quarter of the present rate as compensation for keeping the road in good repair. The Commissioners can find lots of takers for the latter offer who will furnish bonds to fulfill their contract.

An Hawaiian Official.

D. H. McKinley, formerly United States Consul at Honolulu, arrived in San Francisco Wednesday, the duly accredited Hawaiian Consul-General for the Pacific Coast. He was so well liked as Counsel at Honolulu that every effort was made to have him retained in that position, but without success. When he was relieved by the present administration, the Hawaiian Government showed the appreciation of his abilities by sending him back in his present capacity.

William Kidder Mead, who has been appointed United States Marshal for Arizona, has been a resident of Arizona for eleven years. He served in both branches of the Arizona Legislature, where he made a good record. At the last National Democratic Convention he did excellent work in bringing the Territories to support Cleveland. His appointment, says an old Arizonian, will give entire satisfaction to the Democrats of Arizona.

Zach Montgomery, Assistant United States Attorney General, writes to the Examiner that he is constantly importuned by California office-seekers, and desires it known that a rule of the Department forbids bureau officials from seeking to influence Federal appointments.

The Accident to Dick Thomas.

The Enterprise, of yesterday, says:

The many friends of Dick Thomas on the Comstock and throughout this section will be grieved to learn of the following very severe and, perhaps, fatal accident which befel him day before yesterday. He has charge of Dall's ranch, near Franktown, Washoe Valley, and is also working a silver and gold mine opposite that point, six or eight miles distant, in the hills on the east side of Washoe Lak. The shaft, or incline, is about 130 feet deep, and he has three men working with him. He had been working, or directing work, in the bottom of the shaft, and when dinner time came he did not come up with his companions, but remained behind. Not coming up the ladder within a reasonable length of time, his men became uneasy and called to him. His reply was strange and unintelligible, and one of the men descended the shaft immediately. He was discovered at or near the bottom, bleeding profusely from a wound in his head, and jabbering wildly in a way that showed his head was severely injured, and other indications induced the conclusion that a rock had fallen, striking the back part of his skull, badly fracturing it. As soon as possible ropes were procured, but owing to the care that had to be exercised, and lack of sufficient help, it took full two hours to bring him to the surface. He was taken to his residence, on Dall's ranch, as soon as practicable, and medical assistance sent for to Carson. Upon careful examination the skull was found to be broken in three places, the immediate injury being at the back part of the head, or base of the brain. He had the best of medical care and nursing, but at last accounts he remained insensible. Mr. Thomas was Assistant Clerk in the Assembly last Winter, and has very many warm friends to sympathize with him and his in this serious affliction.

It is stated in Washington that the resignation of Appointment Clerk Hig will be demanded shortly. It is now in order for the Republican officials still employed in the Treasury building there, to march by their late tormentor in single file, and as they pass him draw their forefinger suggestively across their throats, and in a sepulchral voice remark "You've got to go!"—San Francisco Post.

Major Foreman has presented ten medals—two gold and eight silver—to the Carson Guard to be contested for weekly by the shooting team. This will encourage our boys to renewed practice.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-swf-1yr

Nervous Debilitated Men.

You are allowed a free trial of thirty days of the use of Dr Dye's Celebrated Voltaic Belt with Electric Suspensory Appliances, for the speedy relief and permanent cure of Nervous Debility, loss of Vitality Manhood, and all kindred troubles. Also for many other diseases. Complete restoration to health vigor and manhood guaranteed. No risk is incurred. Illustrated pamphlet by addressing Voltaic Belt Co., Marshall Mich.

Dr. Smith, of the Medical and Surgical Dispensary, 334 Kearney street, San Francisco, Cal., will be at the Golden Eagle Hotel, Reno, on Thursday, Friday and Saturday, July the 9th, 10th and 11th, fully prepared to examine and commence the treatment of all persons suffering from diseases of the eye, ear, nasal catarrh, also chronic affections, and all cases of crippled or deformed. As Dr. Smith is well-known over the entire Pacific Coast as a skillful specialist, and as the institution he represents has unequalled experience in the treatment of diseases coming within its special province, it would be well for all who are interested, to avail themselves of this opportunity to consult him—consultation free.

BREVITIES

The farmers are very busy.
Mrs. Secretary Bayard is dying.
Judge Marshal has returned from the Bay.

Hurry up and secure seats for "We, Us & Co."

Work on the first degree at Masonic Hall this evening.

Keep your firm name and business before the public.

Senator Dennis, of Elko, was a passenger for the Bay last night.

Robinson's circus performed at Ogden yesterday. It will soon be in Reno.

More men are being set to work in the Hale & Norcross. This is a good sign.

Less visitors to Lake Tahoe so far this year than at any period in its history.

Mrs. Amos Alt will hereafter have her Saturday night dances at Armory Hall.

Johnny Cannon and Jim Ferguson came back from California yesterday morning.

General Preble and Senator Hub Parker returned from the Bay yesterday morning.

Grand Chancellor Huffaker paid an official visit last night to Amity Lodge, No. 8, K. of P.

The Caledonia picnic at Treadway's Park on August 8th promises to be an elaborate affair.

Mrs. C. T. Bender and children left Reno yesterday morning for McKinney's, Lake Tahoe, where they will spend the heated term.

The Messrs. Abraham have just received a choice lot of fancy neckware, something new and very stylish.

Your sign in the JOURNAL is fresher than the sign over your door. Push your business or it will push you.

Competition is the life of trade. There is no competition without the generous patronage of the daily paper.

A nice leg of Spring lamb with mint sauce is always good. Go to Pollard's, east side of Virginia street and get a leg.

Thompson Campbell of Pioche, one of the Presidential Electors last Fall, has gone to Butte City, Montana, to live.

Belva Lockwood, late candidate for the Presidency, will certainly draw a large crowd to her lecture in Reno on the 21st.

If anyone doubts that George Becker keeps the best beer and sets the finest lunches then they are mistaken and 12½ cents will prove it.

Hon. E. T. George, Speaker of the late Assembly, was married in the town of Lewis, Eastern Nevada, on July 5th, to Miss E. M. Eads.

The gaming licenses collected by the Sheriff for the quarter ending June 30th amounted to \$864, and the county licenses to \$1,368 87.

Jake Becker, like George Washington was never known to stretch the truth, when he says he keeps the finest beer and sets the finest lunches.

State Superintendent C. S. Young is now proprietor, editor and publisher of the Carson Free Lance, in place of A. C. Pratt, resigned or sold out.

Mrs. Alt will hereafter hold her regular Saturday night soirees in Armory Hall, commencing this evening. Go and enjoy yourself. Admission 50 cents.

The Eureka county jail is tenantless. In the palmy days of the Base Range, the jail was well filled after the Fourth of July, but times have changed there as elsewhere.

The Commissioners say it will cost \$10,000 to build a new jail, and because the last Legislature failed to pass a bill providing the cash and authorizing them to construct one, they can not do it.

Pete Evans is imbued with the idea that Reno should have a public park or place of resort near the town. He is right and the JOURNAL hopes to see his plans carried out in the near future.

The Appeal says that D. Circe proprietor of the French Hotel destroyed by the recent fire at Carson, has brought suit against the city for his losses amounting to \$20,000. The complaint alleges an inefficiency of water.

The Austin Reveille says: "The Reno excursionists are full of praises over the treatment they received in Western Nevada. Their stories thoroughly riddle the senseless rumors which were afloat here of assaults, etc. The boys now swear by Reno."

The commissioners were in session yesterday. Leete's bill for \$160 for trees was cut down to \$140. Several bills were allowed. It was decided to answer the allegations of District Attorney Alexander and Auditor Williams so that the constitutionality of the salary law of 1885 could be brought before the Supreme Court to-day.

A Fatal Explosion.

From Hervey Carpenter, just in from the southern part of White Pine county, the Eureka Sentinel learns that a fatal accident occurred at Osceola on the Fourth. It appears that James Matson, a Deputy Sheriff of that county, and a number of others were celebrating the day by attaching lighted fuse to sticks of giant powder, and, calculating on the amount of their explosion, they would throw them into the air, where, as a rule, they exploded with considerable force and noise. Matson had for a time been quite successful, but finally one of the sticks of powder thus prepared for explosion fell to the ground, and he supposed that the fuse, having become extinguished, was the cause of its failing to accomplish the desired result. He ran and picked up the stick, and had scarcely raised it from the ground when a terrific explosion took place. Death was in all probability instantaneous, as the unfortunate man was mutilated almost beyond recognition. He was for many years a resident of White Pine county, was 38 or 40 years of age and unmarried. He has a brother residing in Taylor.

A Profitable Colorado Mine.

The Freeland Mining Company paid a dividend of 10 cents per share or \$20,000 on the 1st making \$60,000 paid this year. The Freeland Mine is located at Idaho Springs, Colorado, and is under the superintendence of that severely-seated ex-Comstocker, Frank Obiston. Mr. John W. Mackay went to look at this mine a few years ago, rather liked its looks, bought it and engaged Mr. Obiston to develop it. This he has done very successfully as the net profit of \$10,000 a month shows.

Vansickle.

The Carson Appeal says: The Vansickle affairs were settled on Tuesday evening. He receives \$3,000 from E. Cohn, besides a pair of horses and wagon, two sets of bedroom and a set of parlor furniture, besides several other items of personal property. He left the ranch on Tuesday evening after 6 o'clock. He will for the present reside in Genoa or Carson. The liabilities of the Vansickle estate and which are assumed by Mr. Cohn, are estimated at \$80,000.

Reno's New Foundry.

The Virginia Chronicle of Thursday says: "A carload of clay was to-day shipped to Reno, consigned to John Michaels, formerly chief engineer at the Union shaft in this city. Mr. Michaels is building a large foundry on his own hook at the town on the banks of the Truckee river. He will be likely to succeed in this enterprise, for he is an intelligent and skillful practical mechanic, and a thoroughly square-dealing man."

K. of P. Installation.

Grand Chancellor Huffaker paid an official visit to Amity Lodge, No. 8, Knights of Pythias, last evening, and installed the following officers for the ensuing term: A. Dawson, P. C.; Geo. R. Mosher, C. C.; S. Stanaway, V. C.; S. J. Hodgkinson, P.; J. F. Aitken, M. of P.; J. O. Sessions, M. of E.; C. H. Stoddard, K. of R. S.; C. F. Powell, M. at A; H. E. Higgins, I. G.

Hale and Norcross.

The Enterprise says Superintendents W. H. Patton and Sam Jones and C. Derby and R. F. Pixley were let into the Hale and Norcross mine Thursday afternoon and took a critical expert view of the situation. The winze was twenty-eight feet below the 3,000 level, and the bottom or face was looking splendidly, showing spots of excellent ore. The winze is well trimmed out and properly timbered from top to bottom. The ore formation indicates that it dips or inclines more to the eastward than the winze does. A small compressed air donkey engine will be placed in hoisting position at the head of the winze, which will much facilitate the deeper sinking. At the Combination shaft the sinking deeper is practically commenced, and will be pushed downward as fast as men and means will permit. It is the intention to have the winze and shaft keep tally together in the matter of sinking to the 3,200 level, 200 feet below the present deepest, or 3,000 level.

Too Many Rabbits.

The Silver State learns that the ranchers in Buena Vista Valley, below Unionville, are very much annoyed by rabbits. They are almost as numerous and nearly as destructive as locusts are in many places in the States. Every five or six years the valleys are alive with them. A few years ago, at Guthrie's ranch, twelve miles south of Winnemucca, thousands of them were killed in various ways—by snares, shot, etc.—the Indians having been furnished with powder and shot by Mr. Guthrie to kill the pests. Subsequently they made their appearance along the Humboldt and in Paradise Valley. Fortunately, when they got so numerous as to threaten every green thing with destruction they die by hundreds, and for years again very few of them are seen. The Indians feast on them at times, especially in the fall and winter.

Baptist Church.

Rev. B. F. Rattray, of Alameda, Cal., has accepted a call to the pastorate of the Baptist Church in Reno and will preach Sunday morning at 11 o'clock on "The double foundation of Eternal life," and in the evening on "The conflict of life." A cordial invitation is extended to the public to attend. No collection taken.

County Finances.

The reports of Auditor Williams and Treasurer Boyd for the quarter ending June 30th show the receipts to have been \$4,785 42, and the expenditures \$14,203 80, leaving a cash balance of \$12,456 13. The liabilities of the county on June 30th amounted to \$12,222 63, including \$8,000 Reno bridge bonds.

A Mistake.

The Austin boys thought it was Capt. Alexander, instead of John Alexander, the farmer, who had his thumb torn out Wednesday, and yesterday Capt. Curtis telegraphed the Captain that they were very sorry he had met with such an accident, and hoped he would soon be around all right.

ROYAL

BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, stum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., new-dew 100 Wall St., New York.
